Rashi Sharma

Portfolio | LinkedIn | rashis0681@gmail.com | +91-8962449726

Full stack developer with 3 years building production web apps, currently focused on RAG pipelines, FastAPI microservices, and React/Next.js frontends.

SKILLS SUMMARY

Languages	Python, TypeScript, JavaScript (ES6+), SQL
Frontend	React 18, Next.js, Material UI, Tailwind CSS, Zustand, TanStack React Query
Backend	FastAPI, Node.js, Express.js, REST APIs, JWT/OAuth
AI/ML	LangChain, LangGraph, OpenAI APIs, RAG Pipelines, Qdrant (Vector Search), Sentiment Analysis
Databases	PostgreSQL (Relational), MongoDB (NoSQL), Redis (Caching)
DevOps & Cloud	AWS (EC2, S3), Jenkins (CI/CD), Git, GitLab, GitHub
Tools	Jira (Agile), Postman (API Testing), VS Code

WORK EXPERIENCE

TATA Consultancy Services | Full Stack Developer — Nov 2023 – Present

AGM: Internal AI Assistant Platform (RAG-based chat system)

- Architected a Retrieval-Augmented Generation (RAG) backend in Python and FastAPI, converting user queries to embeddings via OpenAI and performing vector similarity search using Qdrant.
- Orchestrated multi-step retrieval and prompt-enrichment workflows with LangChain to improve response relevance.
- Built a reusable component library using Material UI + TypeScript for chat-based features, accelerating frontend development for new screens.
- Implemented asynchronous state management for chat history using TanStack Query, ensuring persistent and responsive conversational experiences across sessions.
- Designed and deployed 8+ task-specific AI agents using the Langgraph agent framework, automating query routing and tool selection, cutting average manual triage time by 40%.
- Orchestrated multi-agent workflows with LangGraph, modeling conditional branching, retry logic, and human-in-the-loop checkpoints as stateful graphs to handle complex, multi-step user requests reliably.

RiskLogger: Enterprise Risk Tracking & Reporting Platform

- Led migration from a legacy monolithic architecture to a FastAPI-based microservices architecture, improving deployment agility and enabling independent service scaling.
- Built 20+ REST APIs in FastAPI for risk tracking and real-time reporting, providing cross-departmental visibility into live risk data.
- Optimized SQL queries using PostgreSQL indexing and query tuning, achieving a 35–40% reduction in data retrieval latency for large-scale datasets.

iTAAG: Customer Feedback & Sentiment Analytics Platform

- Built an end-to-end Sentiment Analysis microservice in FastAPI, leveraging LangChain for structured output parsing to extract sentiment scores, emotion labels, and key themes from user feedback via OpenAI APIs.
- Designed and delivered 50+ production REST APIs with pagination, centralized error handling, and PostgreSQL query optimization (indexing, query tuning) for high-concurrency workloads.
- Cut frontend load time by 35% through lazy loading, code splitting, and migrating global state from useContext to Zustand, eliminating redundant re-renders.
- Conducted 50+ code reviews and resolved 10+ critical production bugs; maintained a zero-rollback release record over multiple monthly release cycles.

INTERNSHIP

IES IPS Academy | Software Developer Intern — May 2022 – Oct 2022

College CMS Portal

- Developed reusable React UI components and RESTful APIs for a college CMS portal covering courses, faculty profiles, and announcements; implemented a role-based admin dashboard with RBAC for admin, faculty, and student access.

PROJECTS

EventEase | Github

- Production-grade SaaS ticket booking platform built with Next.js, Node.js, MongoDB, Stripe payments, JWT/OAuth, and Redis caching; deployed on Render and Vercel.

LetsShop | Website | Github

- Full-stack e-commerce app using React, Next.js, and Material UI with PayPal payments and Sanity.io as headless CMS for dynamic product management; deployed on Vercel.

Knowledge Hub | Website | Github

- Full-stack blogging platform with React and Tailwind CSS featuring CRUD, likes, comments, search, Google Auth, and Sanity.io CMS; deployed on Netlify.

EDUCATION

B.Tech in Computer Science – IES IPS Academy, Indore — 2019 – 2023

CGPA: 9.1

ACHIEVEMENTS

- Awarded Applause for Team and On-the-Spot Team Award.
- Solved 600+ Data Structures & Algorithms problems on LeetCode.
